For the Attention of the: **The Accounting Professional and Ethical Standards Board**

As a member of the **IFAAA** (Independent Financial Advisers Association of Australia), an organisation that upholds an even higher standard of independence, we naturally and wholeheartedly endorse the decision by the Accounting Professional and Ethical Standards Board [REF: standard APES 230 Financial Advisory Services] to remove remuneration models that include commission and or asset based fees for member accountants that provide Financial Planning services to their clients.

We see this as the first step towards providing clients with non-biased and conflict fee advice.
