

## APES GN 30 Stakeholder Consultation

During the APES GN 30 project, Technical Staff sought to engage with a wide range of stakeholders. From the initial request we have managed to engage with 13 stakeholders.

We have completed a number of stakeholder engagements but there are still a couple of meetings which are scheduled to be held in the last two weeks of November 2018. For the meetings yet to be held, we have had some preliminary discussions with the stakeholders. Technical Staff will provide a verbal update on the outcomes of these meeting if additional matters or issues are raised that have not already been raised by other stakeholders.

The details of the stakeholders are set out below.
